

AL SHAHARIAR KABIR TUHIN

Junior SQA Engineer

🌐 shahariarkaabir · 📧 shahariarkaabir · ✉ shahariarkabir.cse@gmail.com · 📞 +8801990935788

Professional Summary

Junior SQA Engineer with 1.5+ years of experience in manual and automation testing across e-commerce, shopify plugins, monitoring applications, and OTA platforms. Skilled in the full STLC within Agile teams. Expertise in Selenium (Java), Cucumber (BDD), Postman, JMeter, and CI/CD pipelines via GitHub Actions. Strong focus on test coverage, edge cases, and clear team collaboration.

Technical Skills

Testing Strategy: Requirement Analysis, Test Planning, Designing, Writing and Reviewing Test Cases, Test Execution and Evaluation, Creating Test Reports, Root cause analysis & Bug Reporting.

Automation Tools: Selenium WebDriver (Java), Cucumber (BDD), Postman & Newman, TestNG

Performance & Security Tools: Apache JMeter, OWASP ZAP

Defect Tracking & Test Management: Jira, Trackforce

Programming & Databases: Java, JavaScript, C++, MySQL

Methodologies & Frameworks: Agile, Scrum, SDLC, STLC, BDD, POM, OOP

CI/CD & Version Control: GitHub Actions, Git, GitHub

Experience

Akij iBOS

Sep 2024 – Present

Junior SQA Engineer (Jan 2025–Present) | Trainee SQA Engineer (Sep 2024–Dec 2024)

- Design and execute test plans and test cases for web, desktop, and mobile applications.
- Build and maintain UI automation using Selenium, Java, and Cucumber (BDD) with Page Object Model.
- Develop API automation suites in Postman and Newman for endpoint and integration validation.
- Integrate automated tests into GitHub Actions CI/CD pipelines for continuous execution.
- Perform load and performance testing in JMeter to identify bottlenecks before release.
- Conduct cross-platform desktop and mobile (Android/iOS) application testing across environments.
- Logged defects in Jira and perform root cause analysis with developers.
- Collaborate with Product Managers, BA Team, and Developers in Agile ceremonies.

Star Tech & Engineering Ltd.

Aug 2023 – Nov 2023

Junior Executive – QA

- Executed test cases for core e-commerce flows: search, cart, checkout, and orders.
- Performed functional and regression testing to validate releases.
- Reported defects with reproduction steps and severity classification.
- Collaborated with developers to investigate issues and validate fixes.

Personal Projects

UI Automation Framework (Selenium + Java)

Web UI automation suite using Selenium WebDriver with Java, built on the Page Object Model.

<https://github.com/shahariarkaabir/Automation-Testing>

API Testing with Postman & Newman

REST API test collections in Postman with automated execution and HTML reports via Newman.

https://github.com/shahariarkaabir/student_API_Automaition

Performance Testing with JMeter

Load and stress test plans in JMeter to measure response times, throughput, and bottlenecks.

<https://github.com/shahariarkaabir/JMeter>

Test Case

Documented test cases for web and mobile applications covering positive, negative, and edge cases.
